ABOUT ME

Hi i graduate from SMK with TKJ major and i finished bootcamp Fullstack Developer in PT. DumbWays Indonesia Technology with Real Project from it. My spesialized in backend. Actually i have experience to be a PM for hackaton (1# winner) project (2 days working) and do the backend.

PROJECTS

• zZ (Clone twitter/X) | Individuals

This is threads individuals (social media twitter clone) project. We can post threads with image,likes, replys and follows , we have to login first for that

• Lakoe.Id (E-Commerce) | Team Project

This project is for helping UMKM to Promote their stores ,and i worked in 3 division(Schema division, Order Success Division, and Checkout Division).

• Noesakan.ID (E-Commerce, Threads) | Hackathon Winner (Team Project)

This is E-Commerce and threads Project about Nusantara Ikan with 4 members with me as PM and backend,

Beside we can find product we can search in the Threads page, Read article for educate people what benefit to eat fish .

CERTIFICATION

2023

• DUMBWAYS HACKATHON CERTIFICATE #1

Making web E-Commerce with Threads ,Im the PM and backend of 4 members
